

WMO - References on the cycle from observations to Climate Services

WMO #	Title
Preserve & Make Available	
1238	Manual on the High-Quality Global Data Management Framework for Climate
1182	WMO Guidelines on Good Practices for Data Rescue
1354	Guidelines on the WMO Recognition of Long-Term Observing Stations
Link	WMO framework for Centennial and Long-Term Observing Stations
Link	Data Rescue Portal
Build Trustworthy Data	
100	Guide to climatological practices
1131	Climate Data Management System Specifications
	Guidelines on Surface Station Data Quality Control and Quality Assurance for Climate Applications
1269	Guidelines on homogenization
1245	Stewardship Maturity Matrix for Climate Data
1328	
From Data to Climate Information	
1203	WMO Guidelines on the Calculation of Climate Normals
847	Climatological standard Normals (CLINO) for the period 1991–2020
WMO/TD-No.	
1377	The Role of Climatological Normals in a Changing Climate
1186	Guidelines for the Submission of the World Weather Records 2011+
1173	Handbook of Drought Indicators and Indices
1310	Developing the Climate Science Information for Climate Act
Web	Climpact: Software for sector-specific climate indices
Web	ET-CCDI & CLIMDEX
Web	WMO Key Climate Indicators
From Observational Datasets to the Bigger Climate Picture	
1395	State of the Climate in Latin America and the Caribbean 2025
1400	State of the Climate in the South-West Pacific 2025
1398	State of the Climate for Africa
1391	State of the Global Climate 2025
1397	State of the Climate in Asia 2025
	Step-by-step Guidelines for the Elaboration of Regional State of the Climate Reports
1298	Guidelines on the Definition and Characterization of Extreme Weather and Climate Events
1310	
1317	Guidelines for the WMO Evaluation of Records of Weather and Climate Extremes
Web	IPCC Assessment Reports and relevant climate assessment products
Web	CSIS and its data, monitoring, prediction and projection functions
Web	CORDEX and its regional climate downscaling datasets and products
Web	WMO Regional Climate Centres and their products and datasets
Web	WIPPS — WMO Integrated Processing and Prediction System
From Climate Information to Climate Services	
Web	Guidelines on CSIS Regional Implementation
1220	Guidance on Verification of Operational Seasonal Climate Forecasts
1246	Guidance on Operational Practices for Objective Seasonal Forecasting
	Guidelines on Operational Sub-seasonal Prediction (Draft Under Review)
	Guidelines for RCOF/RCF Operations (Draft Under Review)
	Guidelines for NCOF/NCF Operations (Draft Under Review)

WMO - References on the cycle from observations to Climate Services

WMO #	Title
	Guidelines on the Interpretation and Use of Regional Climate Change Projections (Draft Under Review)
1206	Step-by-step Guidelines for Establishing a National Frameworks for Climate Services
1389	Guidelines for Implementing a National Framework for Climate Services
1390	Guidelines for Implementing a Regional Framework for Climate Services
1288	Guidelines on Communicating Climate Science and Services
1214	Guidance on Good Practices for Climate Services User Engagement
	Guidelines on Climate Risk Management (Draft Under Review)
	Guidelines on Tailoring Climate Information (Draft Under Review)
1329	Guidelines for the Establishment and Operation of WMO Regional Climate Centres
Enabling Members to Deliver and Sustain Climate Services	
1247	Capacity Development Guidelines
	Basic Instructional Package for Climate Services (BIP-CS)
